SPINNING

Our present product range consists of auto cleared and spliced single and two folded yarn for knitting & weaving:

Cd/Cm	Carded & Combed cotton 100%	Ne16-Ne40
TC/CVC	Polyester/cotton 65%/35% and 50%/50%	Ne16-Ne45
TR	Polyester/rayon 65%/35% and 50%/50%	Ne16-Ne40
RC/CR	Rayon /cotton 50%/50% and 40%/60%	Ne20-Ne40

We have spinning plant based on Rieter technology. We also have Murata TFO machines. We are exporting yarn of various blends both single & folded to Europe, Australia, Japan and Far East Asia. Special count requirements can be supplied as per customer's requirements.

Our Spinning Division is the First Textile Company certified to ISO 9001:2000 by SGS International Certification Services Indonesia on May 2001.

Our yarn can match or even be better in quality / performance in comparison to any other leading yarn supplier from this region. We Also supply cotton yarn conforming to Oeko-tex standard 100.

CERTIFICATE NO ID04/0433
SPINNING DIVISION

for the following articles:
cotton yarn carded and combed,
count range NE 16 to NE 60, single and double.

FABRICS

All types of knitted fabrics like Single Jersey, Double Jersey, Pique, Lacoste, Interlock, Rib, French Terry, Baby Terry, etc. in various blends, weight and width. Some of the common blends are 100 % cotton (combed / carded cotton), poly/cotton, poly/viscose, etc.

Fabrics can be supplied processed or grey.

Mercerizing facility is also available.
